PLUS | **WEBAPP**

ONE-CLICK WEB PORTAL ACCESS

Experience seamless remote access - anytime, anywhere.

The TSplus Web App transforms your browser into a powerful, native-like workspace. Install it instantly on any device and access your business applications, desktops, and data with just one click, no app store required!

ACCESS YOUR WEB PORTAL AS IF IT WERE A LOCAL APP!

In today's hybrid work environment, your organization needs secure, flexible, and user-friendly remote access. The TSplus Web Portal makes it simple to deliver applications from a central server through a secure HTTPS interface. Users can connect to all their assigned apps from one intuitive, customizable web dashboard that reflects your company's identity.

Give your team the ultimate remote work experience: Their office, just a tap away.

PROGRESSIVE

A web-based, "native-like" app supported by all major browsers (Chrome, Firefox, Safari, Edge...).

CROSS-PLATFORM

Enjoy a consistent, responsive experience across desktop, tablet, and mobile, with a local app look and feel.

LIGHTWEIGHT & FAST

Install in seconds. No Google Play or Apple Store needed. Low data usage and offline resilience make it ideal for any network condition.

RELIABLE & SECURE

Delivers the same performance, features, and security as the TSplus Web Portal, with an even smoother experience.

INCLUDED IN TSPLUS REMOTE ACCESS WEB MOBILE AND ENTERPRISE EDITIONS
